

Structured Judgement Review in Acute Care

Regional SJR Training for Acute Trusts

Friday 30th September 2022, 13.00 – 16.30

Delivered via Zoom

SJR Training overview:

- Background and introduction to SJR
- SJR methodology and phase of care scores
- Complete an SJR using example case notes
- Learning from SJR
- An opportunity for breakout discussions with people from different trusts and settings
- Q&A sessions

The Improvement Academy offers a small number of funded places to Yorkshire and Humber NHS and social care organisations. A cancellation charge of £75 may apply if less than 48 hours' notice is given.

This event will be delivered by:

Dr Michael McCooe

Consultant Anaesthetist and Clinical Director, Improvement Academy

Michael has led the development of Structured Judgement Review as an evidence-based approach to learning from deaths in hospital. In partnership with the Royal College of Physicians, Michael supported national implementation of the NHS 'Learning from Deaths' policy and is a national trainer for the programme. Michael is also a member of the Independent Advisory Group for the NIHR Yorkshire and Humber Patient Safety Translational Research Centre and a Consultant in Critical Care and Anaesthesia at Bradford Teaching Hospitals.

Dr Andrew Gibson

Consultant Neurologist, Sheffield Teaching Hospitals NHS Foundation Trust and Mortality Lead, Improvement Academy

Andrew was clinical lead for the National Mortality Case Record Review programme and subsequently went on to hold the role of clinical lead for patient safety at the Royal College of Physicians. His most recent work has centred on the use of SJRs to assess the quality of care received by those during the Covid pandemic.

Places are limited and will be allocated on a first come first served basis.
