

A Practical Application of PSIRF Principles to Improve Patient Safety in Maternity

Friday 21st February 2025
09:00 to 16:00

Seminar Room 1, Wolfson Building, Bradford Institute of Health Research, Bradford Royal Infirmary BD9 6RJ

Aims

This one-day course will enable you to feel more confident in your role as an investigator/improver through:

Understanding:

- the systems thinking that underpins an effective learning response
- how PSIRF can help support a Just and Learning Culture

Learning:

- tools for effective engagement that will support your investigations
- some helpful techniques for analysis of the information available
- translating the learning gained to support effective improvement

This training is designed to complement, not meet national training requirements. It is experiential – you will practice using some of the techniques.

It uses the Improvement Academy's Human Factors, Just Culture, Staff Support, Patient Engagement, Qualitative Analysis, and Quality Improvement expertise.

This course is free because we are actively seeking your input and ideas for final refinement.

This course will be delivered by:

Mel Johnson

*Assistant Director Patient Safety,
Improvement Academy*

Mel leads the Yorkshire and Humber Patient Safety Collaborative and brings an applied focus on Human Factors and behaviour change to 'learning by doing' QI training. A nurse by background, Mel joined the Improvement Academy team in May 2015. Most of her career has been spent in a quality role, working in risk and governance as well as managing national Patient Safety initiatives and campaigns.

Dr Shireen Hickey

Obstetrics and Gynaecology doctor

Shireen is an Obstetrics and Gynaecology doctor in the West Yorkshire Region and an Improvement Fellow at the Improvement Academy. She has a post graduate certificate in Psychology in the Workplace and a passion for Listening to Women and Supporting Staff ;with an over-arching goal to reduce inequalities and improve the culture within Maternity.
