NHS

Structured Judgement Review Training

Thursday 24th June 2027
13:00 - 17:00

delivered via Teams

SJR Training overview:

- Background and introduction to SJR
- SJR methodology and phase of care scores
- Complete an SJR using example case notes
- Learning from SJR
- An opportunity for breakout discussions with people from different trusts and settings
- Q&A sessions

"Excellent delivery. Trainer was very skilful, inclusive and organised. He is empowering and inspiring to all delegates. Thank you very much"

"Case notes and breakout scenario were excellent"

"I never had a formal training on SJR, but it is now clear to me how this works and how this should be done in the correct way"

Dr Andrew Gibson

Mortality Lead Improvement Academy
RCP NCEPOD Steering Group
Chair South Yorkshire MNDA

Andrew was clinical lead for the National Mortality Case Record Review programme and subsequently went on to hold the role of clinical lead for patient safety learning at the Royal College of Physicians. His most recent publication has centred on the use of SJRs to assess the quality of care received by those during the Covic pandemic.
